Primary Seven is the final year of primary school in Uganda. On November 8th and 9th of this year, students will sit for National Primary Leaving Exams. They are tested in four subjects—English, Math, Science, & Social Studies—covering material from all seven years of primary school. Results, which are ranked in four "divisions," will indicate the students' potential to succeed in secondary school next year. For the past two years, all of our P.7 students have ranked in the top two divisions and moved on to success in Senior 1.

Our Prefects

Once again our students dominated the elections for primary school offices. Although making up only twelve percent of the student body, our kids occupy 30% of the prefecture, including Head Prefect, Head Boy, and Head Girl. We're proud of them for having the confidence to run for office and for earning the respect of their peers.

The St. Nicholas Uganda Children's Fund supports over 210 orphans and vulnerable children in primary & secondary school, vocational & professional training, and university. We pay school fees and provide uniforms, shoes & socks, school supplies, meals, and health care. With your help, we can make a real difference in their young lives.

Students of the Month

Esther and Elizabeth are two amazingly bright sisters whose academic achievements seem to improve every year. They lost their father when Esther was three years old and Elizabeth was one.

Esther

Elizabeth

Their mother runs a clothes washing business out of the front half of their one room flat which they share with their orphaned cousin Frank, a university student in our program. Now in high school, Elizabeth was our top student in Senior 1, and Esther was number one in Senior 3. Elizabeth's best subject was Luganda (the local language) with a 100% score. She also excelled in Biology, History, and Divinity. Esther earned Distinctions in eight of her ten subjects, with her best being Math, Agriculture, and Geography.

Ancient Faith Radio Interview

Ancient Faith Radio interviews Peter and Sharon Georges about their work in Uganda providing accessible education to orphans and vulnerable children to break the cycle of poverty into which they were born.
